All out of state livestock must comply with New Mexico import requirements. The Form 1 inspection will be issued at the time the NMLB APPROVED tag is placed in the animal. The application of the tag will be done by the extension agent, FFA advisor or Fair personnel. The purpose of these requirements is to keep on file a record of animals that are commingled at Expos and shows. All sexually intact dairy cattle over 4 months of age are required to have a negative TB test. TB tests will be honored for 120 days prior to showing. USDA Accredited TB-Free Herd status will be recognized.
